

SCENT:LINQ™

SCENT::LINQ™

Scents that touch emotions...

The invisible force; ambient scenting.

Communicate directly to your customers' emotions through scents that evoke pleasant feelings and make them gasp with delight at your ambience.

We realize the importance of an appropriate scent as an interior design element. Our experienced scent consultants focus on the right solution for each client.

Our goal is to link the emotions and memories that are buried deep in our olfactorial archive at the subliminal level, by the help of the most direct and powerful sense - the sense of smell – and our perfectly captured scents...

Let us demonstrate what we can do for your business with our advanced scent diffusion technologies & professional scent solutions.
